## Honoured with the Kitchen Innovation Award 2025!

Dear Mr. Schraudy,

Innovation is the key to a promising future. Consumer-driven, innovative developments are not only essential for a world fit for our grandchildren, but they also provide moments of wonder and enrich our lives.

Recent studies show that innovation is no longer just a technical detail - it is a decisive buying argument that captures the hearts of consumers. This is where we come in with the Kitchen Innovation Award: For years, we have been helping retailers and consumers to recognise the truly outstanding products - those that have been proven to make everyday kitchen life more enjoyable.

The most popular kitchen innovations have once again been chosen in our special two-stage selection process. All the winners have one thing in common: It is the ability to focus on consumers' wishes and at the same time arouse their curiosity - through continuous and bold innovation. This is exactly what you have demonstrated in an impressive way.

Your submitted product **abien MAGIC GRILL** has impressed across the board with its outstanding product features and exceptional user-centric design. With great joy and in highest recognition of your achievement, we are honoured to present you with this prestigious award:

Kitchen Innovation Award 2025

**Award-winning product**

in the criteria

**Functionality, Innovation, Product benefit, Design, Material quality**

and the

**Golden Award – Best of the Best in the category Small electrical appliances**
