### Honoured with the Kitchen Innovation Award 2025!

Dear Mr. Schraudy,

The expert jury and gastronomes of the Kitchen Innovation Awards 2025 have decided on the most popular product innovations in the category of gastronomy and commercial kitchen equipment. Once again, it became evident that the most successful innovations in the competition do not impress with just one single criterion but address and fulfill user needs in many different ways. New concepts that prioritize the needs of our society also gained significant approval.

Our expert jury is therefore convinced that the abien MAGIC GRILL not only provides consumers with excellent support in their everyday kitchen routines but also proves invaluable for professional chefs in gastronomy. The experience aspect, especially when engaging directly with guests, has been particularly impressive – whether as part of front-cooking stations in buffet areas or its use directly at the table.

Therefore, we are delighted to present the abien MAGIC GRILL with an additional award in the category of gastronomy equipment as a mark of highest recognition for its outstanding user orientation.
